Officers Hounded By Strange Events In Hardin Section

It's a doggone shame what county officials sometimes have to do.

Deputy Sheriff Crenshaw of Hardin had to arrest a couple of men the other night for imbibing too freely.

The men had eight hound dogs in a pickup truck. They were trying to sell or trade the dogs and were creating a disturbance.

In order to arrest the men, the officer had to be responsible for the dogs and the truck. The deputy called Sheriff George Little and County Attorney Marvin Prince for help.

Some of the dogs escaped from the truck, and the officers had to run through water and mud to recapture the animals.

Finally, about midnight, the arrested men were brought to jail and the dogs and truck were stored for the night at Phillips Chevrolet garage.

And the officers, tired from being hounded by strange happenings, went to their homes for some welcome sleep.

Mr. and Mrs. Joe Coulter and daughters, spent the weekend of Mother's Day in Danville, Ky., with their son, Phillip Coulter, who is a student at Centre College there.

Ky. Lake Controls Big Water Supply From Spring Rains

Kentucky Lake will be controlled at the 365-foot level, the TVA will examine the flood picture on the Ohio and Mississippi Rivers Friday and if those conditions are favorable the lake level will be lowered.

Water now is going through Kentucky Dam at the rate of 70,000 cubic feet a second. If there were no dam, the normal flow of the Tennessee River would be 215,000 cubic feet a second.

Kentucky Lake's capacity is 375.0 feet. Impounding of water in the lake already has prevented a possible \$10,000,000 in damage from floods.

A Message From Christian County to Our Neighbors in Marshall County:

We have heard some people say, "GREGORY HAS BEEN IN CONGRESS LONG ENOUGH!" Yes, we say, LONG ENOUGH to be able to get things done for us that a Fresman cannot get done.

LONG ENOUGH;

To secure the initial appropriation for Kentucky Dam and Lake and to see it finally completed, thus bringing recreational facilities never dreamed of and vast industry into West Kentucky giving employment to thousands.

To secure the initial appropriation for Barkley Dam and Lake which is now under construction.

To aid in the agricultural program of Kentucky, the T.V.A. and R.E.A. meaning so much to all farm residents. To help us with our watershed and drainage problems.

To help write all the social security legislation and Old Age and Assistance programs as well as unemployment compensation, all of which originates in the Ways and Means Committee of which he is by reason of seniority now the Vice Chairman, being one of only two members from the First District to serve on this Committee since its foundation 153 years ago. The other First District Member being the late Ollie M. James of Marion.

To aid thousands of veterans and their dependents in obtaining the benefits to which they are entitled.

We suggest that you ask your neighbor who has written to him on a personal problem just what kind of service he gave you.

We do not subscribe to the idea of discharging a trained employee for an untrained one. A successful Congressman must learn his profession by experience for Congressional know-how is not inborn. We have watched him grow from a green inexperienced Congressman into a mature and seasoned public servant. Without this seniority the above and countless benefits would not have come to us.

We gave him in 1956 a majority of over 3,000 votes. As an expression of confidence and appreciation we will give even greater majority on May 27th and we invite you, our Marshall County neighbors, to join us in sending to Congress in 1959 a top-flight trained public servant rather than one who would have to go through the long years as a freshman before becoming qualified to meet and deal with the intricate problems of the present day.

W. E. Rogers Jr., County Attorney
Harold H. McKinney, Sheriff
